

The Wellesley Natural Resources Commission
Invites You to Attend a Program on

ULTIMATE ORGANIC LAWNS

WELLESLEY TOWN HALL
Wednesday, May 7, 2008, 7:30 PM – Free

**Save Dramatic Amounts of Water,
Time, Money & Protect Our Environment**
(& Lessen Global Warming)

Come learn everything you need to know about growing a very low maintenance, environmentally safe, lush organic lawn. This short program will teach you about an organic lawn care program and special tips used by the **RED SOX** at **FENWAY PARK** and about a new deep-rooted ecological grass that requires no watering, no fertilizer or regular cutting. Stop lawn care run-off that feeds **INVASIVE WEEDS** in our ponds. Presented by Jackson Madnick, environmental expert and recipient of the 2007 “Regional Environmental Hero Award.”

PROTECT YOUR CHILDREN, ANIMALS & YOUR HEALTH by never using toxic pesticides or fertilizers on your lawn again, but still have a beautiful green lawn.

Free Starbucks Coffee and Whole Foods Dessert will be served.
